Experience

ClinChoice (Paris, FR)

April 2024 - Present

Innovation Technology Intern

- Worked first hand with MLOps head to decide on a cloud platform. Created a value proposition, documentation, and diagrams to match.
- Current head of a UI overhaul for the AI portal/landing page. Using JS and Vue framework to create an intuitive and beautiful experience.
- Gain experience with data preprocessing. Learn the art of cleaning and structuring data for ML readiness. More is not always better.
- Further develop knowledge in Python for ML algo implementation and Jira for task management/scrum development methodology.

Jamtrackd (Los Angeles, CA)

March 2023 - Present

Founder / Lead Developer

- Writing a mobile application that allows users to rate and share their music tastes. Full stack experience based in Flutter/Dart.
- Improving package management skills. Packages in use include, but are not limited to, freezed, goRouter, Riverpod, and UUID.
- Developing further knowledge on APIs and network communication. Spotify API provides an OAuth secure database for music data with Firebase backend for storing user data and content.
- Intuitive understanding of XCode and IOS development.
- Acquired a custom url for the project, modifying the DNS to make sure it could be hosted online.

EV Range (San Pedro, CA)

November 2022 - April 2024

QA Engineer / Marketing Lead

- The last line of defense between buggy software deployments and production. Ensure pushes from the development team function with the rest of the codebase, using both automated Cypress scripts and manual tests to be completely thorough.
- Familiar with the many protocols used in EV space, most importantly OCPP for JSON messages and configs and SFTP for firmware updates and log downloads.
- Solely responsible for writing, revising, and publishing press releases on behalf of the company. Created and used PRNewsWire account.
- Write, shoot, and edit videos, blogs, and infographics for social media on varying topics about EV industry and the company.
- As an intern, conducted market research on 20+ companies, and created SWOT analysis for each to present to board members.

Marathon Management Inc. (Beverly Hills, CA)

October 2022 - March 2023

Talent Management Intern

- Assist the management team with the script selection process. Provide thorough coverage and personal analysis on scripts, decks, and pilots submitted to Marathon Management to determine the quality of the projects.

Julienne Fine Foods and Celebrations (San Marino, CA)

August 2022 - February 2023

Server

Columbia University Language Resource Center (New York, NY)

August 2021 - May 2022

Administrative Assistant

Paramount Studios (Rome, Italy)

June 2018 - August 2018

Intern Production Design Assistant

- Worked alongside Academy Award-nominated production designer David Gropman on George Clooney's production of Catch 22 mini-series for Hulu.
