Experience

Sullyville / Livable Communities Initiative (Los Angeles, CA) **September 2024 - June 2025**

Producer + Video Editor

- Produce, shoot, and edit engaging videos that raise awareness about urban planning, transportation, and sustainability in Los Angeles. Manage all social accounts for Sullyville channel.
- Use Adobe Suite, including Premiere, After Effects, Illustrator, and Photoshop to make channel banners, advertisements, and video content. First video hit nearly 100k views on Youtube.

ClinChoice (Paris, FR) **April 2024 - July 2024**

Web Development / Machine Learning Intern

- Head of a UI overhaul for the AI portal/landing page, using reactjs to create an intuitive and beautiful experience.
- Gain experience with data preprocessing. Learn the art of cleaning and structuring data for ML readiness.
- Honed a NLP model using CoLab, using Python for its deployment and Azure SQL database for storage.

EV Range (San Pedro, CA) **November 2022 - April 2024**

QA Engineer / Marketing Lead

- The last line of defense between buggy software deployments and production. Ensure pushes from the development team function with the rest of the codebase, using both automated Cypress scripts and manual tests to be completely thorough.
- Familiar with the many protocols used in EV space, most importantly OCPP for JSON messages and configs and SFTP for firmware updates and log downloads.
- Solely responsible for writing, revising, and publishing press releases on behalf of the company. Created and used PRNewsWire account.
- Write, shoot, and edit videos, blogs, and infographics for social media on varying topics about EV industry and the company.
